

# The Power of One God

There is a power lying hidden in us, by the use of which we can rise to higher and better things. There is in us a greater Self, that transcends the finite self of the sense-us, even as the mountain towers above the plain. The object of this little book is to help men and women to bring their inward powers of mind and spirit into expression, wisely and in harmony with universal law; to build up character, and to find within themselves that wondrous Self, which is their real self, and which, when found, reveals to them that they are literally and truly sons of God and daughters of the Most High.
