

The Icon Maker

The poetry of Paul Stubbs presents an original and unorthodox re-evaluation of religion and human existence, powered by a visionary impulse which, in *The Icon Maker*, sees the principal theological players in a world beyond religion called to account and made to face uncomfortable transformation into corporeal beings. Resolute atheist, jaded sinner, ecclesiastical man: all are the poet's targets, and in this fine second collection, we encounter a poet working uncompromisingly with language, hounding it to keep it awake and to take on the unrefined materials of his imagination.
