

Materials Processing and Design: Modeling, Simulation and Applications NUMIFORM 2007: Proceedings of the 8th International Conference on Numerical Methods ... / Materials Physics and Applications)

All papers have been peer reviewed. The conference is held to provide a forum for international researchers and practitioners from academia, industry, and laboratories to discuss recent advancements and future directions in the modeling of various manufacturing processes and related materials issues. The conference addresses computational modeling and simulations of traditional metals and polymers processing methods, as well as of advanced materials and emerging manufacturing technologies at different scales.
