

# Psychological Testing Across The Lifespan- (Value Pack w/MySearchLab)

MySearchLab provides students with a complete understanding of the research process so they can complete research projects confidently and efficiently. Students and instructors with an internet connection can visit [www.MySearchLab.com](http://www.MySearchLab.com) and receive immediate access to thousands of full articles from the EBSCO ContentSelect database. In addition, MySearchLab offers extensive content on the research process itself including tips on how to navigate and maximize time in the campus library, a step-by-step guide on writing a research paper, and instructions on how to finish an academic assignment with endnotes and bibliography. For undergraduate courses in Psychological Testing and Measurement and Evaluation. It can also be used for a masters level assessment courses w/in programs for licensing of masters level mental health clinicians. This exciting first edition offers a new approach to Psychological Testing and Measurements. Focused on combining psychological testing with abnormal and developmental psychology, the text incorporates six chapters focused on the psychometric core, with an additional eight chapters devoted to psychological testing and assessment as they are practiced within each stage of development. This organization, in addition to photos, case examples, student question boxes, charts, graphs, and statistical information, are designed to garner student interest and assist with real-life applications of the text material.
