In the savage world of hired guns, Malakai is a legend, a god, a trigger-puller without peer. His childhood innocence twisted by an abusive father, blood and bullets have become his religion. He sells his lethal skills to the Company, the quintessential lone wolf assassin. When Malakai is contracted to stop a powerful Japanese crime syndicate from blackmailing the chairperson of the Senate Intelligence Committee, he discovers someone is playing Judas and he needs to figure out who it is before he gets burned. As the chaos and carnage escalate, his life gets complicated by the arrival of a mysterious woman who may have even more scars on her soul than he does. But is she really who she says she is? With betrayal all around him, Malakai knows one wrong move could cost him his life. When the Syndicate hires a pair of ruthless assassins to hunt him down, Malakai knows the only way to survive is to fight fire with hellfire. In a scorched earth showdown, hell take the war right into the black heart of the Syndicate and as the bullets blaze, discover what truly matters most.
